

This Modification changes parts of Section 32 12 05 Bituminous Concrete of the Manual of Standard Specifications (2017 edition), as published by the Utah LTAP Center, Utah State University, Logan Utah, with all published amendments, which is hereby incorporated by reference, along with all other referenced sections.

**SECTION 32 12 05 M
BITUMINOUS CONCRETE (MODIFIED)**

Revise Section 2.3 as follows:

2.3 ADDITIVES

- A. Mineral Filler: None
- B. Recycle Agent: None
- C. Anti-strip Agent: 1% Lime Slurry, minimum
- D. RAP or ROSP (By weight or binder, whichever is lesser): Allowed up to 15%
 - 1. Free of detrimental quantities of deleterious materials
 - 2. No change in specified binder grade

2.4 MIX DESIGN

Replace paragraph A with the following:

- A. Project Specific Requirements:
 - 1. Road Category: Class II
 - 2. Mix Designator (Compaction Effort): 50 N_d
 - 3. Binder Grade: PG 58-28
 - 4. Master Grading Band: SP 1/2

This specification was approved by Farr West City Council during the May 17, 2018 regular meeting.
