

ADDENDUM #2
BOX ELDER COUNTY – 2400 N & SHORT DIVIDE ROAD RESTORATION

The following changes are hereby made to the Contract Documents for the above referenced Project:

QUESTION FROM BIDDER

“Who will be responsible for paying for testing?”

Short Divide Overlay Project: The Contractor will be responsible for the cost of all testing associated with the project.

2400 N Road Restoration Project: Due to the scope of work being shared between the County and the Contractor (See Summary of Work, included in project documents), the County and the Contractor will be responsible for the cost of all testing associated with their respective scopes of work. For clarity, the County will pay for all compaction tests for the subgrade materials. The Contractor will be responsible for any and all testing associated with utility work.

No additional line items will be added to the bid schedule for Testing. These costs should be assumed into one of the other bid items, such as “Hot Mix Asphalt” or “HMA Overlay” or “New Water Line,” etc.

ATTACHMENTS: None

This Addendum is hereby attached to and made part of the Bidding Documents and each Bidder shall acknowledge receipt of this Addendum on the Bid Form.
